1. SATELLITE »MIND CONTROL« - BIOELECTRIC WEAPON SOME INFORMATIONS

“The events at the international political scene, in the last few years, confirm that the concept of remote control of human brain is a matter of negotiations. In January 1999 the European Parliament passed a resolution where it calls for an international convention introducing a global ban on all developments and deployments of weapons which might enable any form of manipulation of human beings.”

MIND CONTROL WEAPON

9.september 2008 The term “Mind control” basically means covert attempts to influence the thoughts and behavior of human beings against their will (or without their knowledge), particularly when surveillance of an individual is used as an integral part of such influencing and the term “Psychotronic Torture” comes from psycho (of psychological) and electronic. This is actually a very sophisticated form of remote technological torture that slowly invalidates and incapacitates a person. These invisible and non-traceable technological assaults on human beings are done in order to destroy someone psychologically and physiologically. Actually, as par scientific resources, the human body, much like a computer, contains myriad data processors. They include, but are not limited to, the chemical-electrical activity of the brain, heart, and peripheral nervous system, the signals sent from the cortex region of the brain to other parts of our body, the tiny hair cells in the inner ear that process auditory signals, and the light-sensitive retina and cornea of the eye that process visual activity. We are on the threshold of an era in which these data processors of the human body may be manipulated or debilitated. 5 Definition of psychotronic (psycho-physical) weapons Psychotronic Weapons (PF- weapons) this is the totality of all possible methods and means (techno-genic, suggestive, pharmacological, paranormal, complexes, and others) of hidden, forced influences on the psyche of a person for the purpose of modifying his onsciousness, behavior and health for what is desired in the way of influencing aspects of control…“ This is not only dangerous, this is deadly!” The First phase is the harassment/surveillance program. They use Echelon, Tempest, microchips, implants, see through wall radar, obtain informants, neighbors, and co-conspirators to harass, discredit, and harm an individual. Victims loose their families, jobs, homes, and cars. Ultimate goal to destroy a persons life which will isolate them from family, friends. The isolation is needed to have access to the person to conduct many of the experiments on them. The second phase is the assaults of Directed Energy Weapons. After a victim becomes isolated from everyone in the world. The victim now having feelings of regret, remorse, of loss, trauma, and are drained and broken emotionally and physically. During this time many have been implanted with microchips. Many begin experiencing extreme pain to their head. Some hear voices. Then pain is delivered to various other parts of their bodies. The pain is delivered by Directed Energy Weapons. Directed Energy Weapons. Some of the weapons were known as non-lethal weapons. They use such weapons as extremely low frequency Elf electromagnetic weapons (which has been used in mind control), acoustics, harmonics (which have been used as a mind control technique), ultrasound, microwave audiograms, microwave pulsed, and radio frequency. Another electromagnetic energy beam can be used to induce “considerable agitation and muscular activity” or “induce muscular weakness and lethargy” this weapon is know as Ultra High Frequency EM. Psychological warfare tactics are being used against unsuspecting citizens to destroy their jobs, their families and their lives. The perpetrators will stop at nothing. Their objective is to utterly destroy a person, very often resulting in a person taking his or her own life, or ending up in a

mental hospital. This has been taking place for years and nothing is ever said about it. Nothing is ever written about it. Some people also experience electronic harassment. This is extremely distressing, painful and invasive, and feels like one's mind and body is undergoing constant rape, 24 hours a day, 7 days a week. The technology used to do this is unknown, but hundreds of victims report the same physical sensations and experiences. Many take their lives in an attempt to escape the horror. The technology involves the use of electromagnetic waves of various frequencies to achieve different results. Some frequencies will make a person tired, while others may cause confusion or memory loss. “Electronic harassment” or e-harassment is a catch-all term used to describe a group of circumstances which a large number of people are currently experiencing in common. 6 Saturday, Februar 19, 2011 PSYCHOTRONIC WEAPONS – BRAIN MANIPULATION FROM A DISTANCE In October 2010, the congressman Denis J. Kucinich introduced in the American Congress A bill, obliging the American president to get engaged in the negotiations aimed at the ban of space based weapons. In this bill the definition of a weapon system includes: any other unacknowledged or as yet undeveloped means inflicting death or injury on, od damaging or destroying, a person(or the biological life, bodily health, mental health, or physical and economic well-being of a person) through the use of land-based, sea-based,or space-based systems using radiation, electromagnetic, psychotronic, sonic, laser, or other energies directed at individual persons or targeted populations or the purpose of information war, mood management, or mind control of cush persons or populations. As in all legislative acts quoted in this article the bill counts with sound, light or electromagnetic stimulation of human brain.Psychotronic fweapons remain, at least for a layman uninformed of secret military research, in the sphere of science fiction, since so far none of the published scientific experiments was presented in the way which would allow for its replication. That it is feasible to manipulate human behavior with the use of subliminal, either sound or visual, messages is now generally known. This is why in most of the countries the use of such technologies, without consent of the user, is banned. Devices using light for the stimulation of the brain show another way how the light flashing in certain frequencies could be used for the manipulation of human psychic life. As for the sound, a report on the device transmitting a beam of sound waves, which can hear only persons at whon the beam of sound waves is targeted, appeared last year in the world newspapers. The beam is formed by a combination of sound and ultrasound waves which causes that a person targeted by this beam hears the sound inside of his head. Such a perception could easily convince the human being that it is mentally ill. The acts presented in this article suggest that with the develpment of technology and knowledge of the functioning of human brain new ways of manipulation of human mind keep emerging. One of them seem to be the electromagnetic energy. 7
